Adirondack Special

Av MFA

The first adirondacks came to life quite far from the ocean, but has since then made its way down to the ocean from the hills and lakes from where it originally appeared.

The Adirondack chair fits in just as well in at boathouse or on the dock. Salt and seabreeze give the chairs a weathered look that only becomes nicer as the years go by.

To further emphasize the connection to the sea I have added parts of vintage waterskis and skimmer boards to some of my chairs. These odd parts from the 40's 50's 60's and 70's make the chairs unique and interesting.

I can also make chairs out of cross country or alpine skis on request.

They look great by the cabin in the mountains.

I will make a comfortable chair out of your favorite old ski as well.
